

Fountain Street Church

24 FOUNTAIN STREET NORTHEAST
GRAND RAPIDS, MI 49503

This brick and limestone Romanesque

landmark in downtown Grand Rapids was

built in 1924. We have provided many

major restoration services including windows,

masonry, roof tile, custom copper gutters,

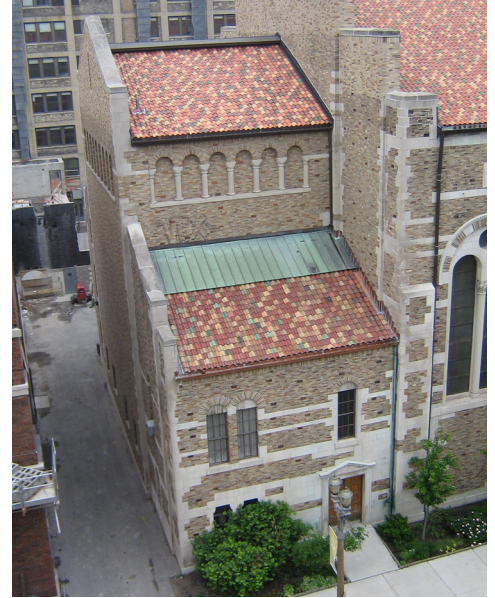

limestone entry ways, copper roofing, and

interior restoration. 

TILE

We have reset and repaired large areas of roof tiles to renew them for decades more of service.

The custom copper gutters were replaced and the tiles reset.

MASONRY

Cleaning old bird deterrent off of the carved limestone rose window was particularly challenging.

METAL

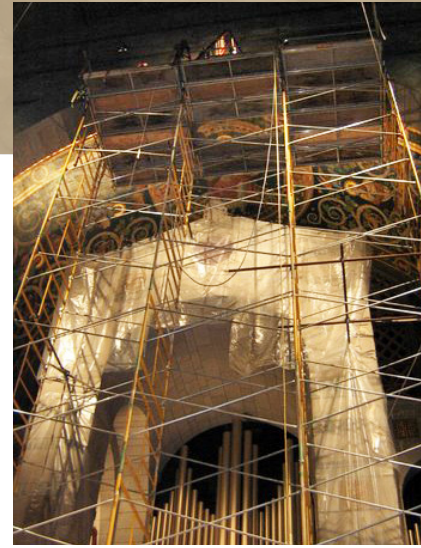

Copper gutters and downspouts have been rebuilt and maintained.

Fountain Street Church

BEFORE

All of the original wood windows in the church house were completely restored.

DURING

Worn and damaged limestone elements have been repaired and replaced. Repairing the stone arch above the sanctuary required some creative scaffolding.

AFTER The heritage of architectural stewardship continues at Fountain Street Church.
